

Invitation: People's Emergency Briefing screening in Blofield Heath

You and your group are invited to attend a local screening of the *People's Emergency Briefing* film on the threats to British life from ongoing damage to nature and to our climate.

Location: Heathlands Community Centre, Woodbastwick Road, Blofield Heath NR13 4QH

Date: Thursday, 2nd July 2026

Time: 7:00 p.m.

The film features footage from last November's National Emergency Briefing, bringing together leading UK experts in climate science, food security, health, economics, national security and nature. It presents a calm, evidence-based overview of how the climate and nature crisis is affecting everyday life in Britain - and what the science says about risks and responses. The initiative is explicitly non-partisan and supported by a wide range of organisations, including the Church of England, National Trust, WWF, the Royal Meteorological Society and many others.

Local community groups have long traditions of stewardship, care for the vulnerable, and intergenerational responsibility. The times through which we are living surely call for thoughtful, compassionate local dialogue in order that we might respond well as communities to the effects that our changing climate is having upon our natural world and our lives.

Following the 50-minute film, there will be a structured discussion about what this means for our community.
